UNITED STATES GOVERNMENT

Memorandum

TO : AD/OEL

DATE: 12 May 1965

FROM : DAD/S&D

SUBJECT:

I attended the meeting on the Scientific Pay Schedule positions. There were only very minor changes in the wording of the draft dated 21 April 1965 referring to the SPS positions. These were directed towards maintaining a flexibility in a way in which SPS's were handled. There was concurrence, however, that all AD and DAD positions should be super grades. The impact, particularly in ORD and other's with a high percentage of SPS's, was discussed in a general way, but no conclusions were reached. There was considerable emphasis given to the proposition that the SPS should not be denied having certain supervisory responsibilities.
